GOHIL HARSHDEEPSINH

Web Developer

Harshdeepsinh Gohil | harshdeepgohil21@gmail.com | +91 9499880808

OBJECTIVE:

I'm always willing to learn something new. self-motivated and hardworking candidate seeking an opportunity to work in a challenging environment in order to prove my skills and utilize my knowledge and intelligence for the growth of the organization.

TECHNICAL SKILLS:

- **Languages**: JavaScript, HTML, CSS, SCSS, TAILWIND
- **Frameworks & Libraries**: Angular 19, .NET Core Web API, Bootstrap
- **Databases:** MySQL
- **AI Services:** Azure OpenAI Services
- **Tools & DevOps**: Gitlab,Git, Clickup

WORK EXPERIENCE:

WRT Infotech.
Jr. Web Developer | 01 September, 2025 – Present

- Worked on a polyrepo architecture, gaining deep understanding of how independent repositories are interconnected through private NPM packages to deliver a unified UI experience.
- Developed expertise in private NPM package management, including how scoped packages are published, versioned, and consumed across multiple repositories.
- Executed a full Angular v11 to v19 migration, handling incremental version upgrades and resolving breaking changes across all interconnected packages and repositories.
- Led UI modernization post-migration by rebuilding the entire interface from scratch aligned with updated Figma designs.
- Migrated the full codebase from PrimeFlex to Tailwind CSS, refactoring layouts and component styles to a modern utility-first approach

NatRIX software pvt ltd.
Jr. Web Developer | 01 January, 2025 – 31 August, 2025

Project 1: Rhoade Side Assist.

- Developed and maintained responsive web applications using .NET Core Web API for backend services and Angular 19 for frontend interfaces.
- Implemented Repository Pattern and Dependency Injection for a clean, scalable, and maintainable code architecture.
- Utilized Entity Framework Core (Code First approach) for database creation via migrations.
- Designed and optimized SQL Server schemas and queries for efficient data handling.
- Built RESTful APIs to enable secure and performant communication between frontend and backend.

Project 2: AI-Powered Rules & Regulations Management Platform

- Built an AI-enabled platform allowing users and admins to interact with organizational rules via a voice-capable chatbot using NLP models.
- Integrated features like voice input, text-to-speech responses, and message copying for an accessible and interactive experience.
- Implemented intelligent PDF rule comparison, where uploaded rule documents are analyzed by AI to detect and highlight changes from previous versions.
- Enabled admins to manage AI behavior through settings like API keys, model configurations, and feature toggles in the admin panel.
- Ensured secure data handling and version control for rules, sections, and user profiles using a structured database.

EDUCATION:

2023 - 2025 | Veer Narmad South Gujarat University
Master of Computer Application
CGPA: 7.6

2020 - 2023 | Veer Narmad South Gujarat University
Bachelor of Computer Application
CGPA: 8.7

LANGUAGES:

- English, Hindi, Gujarati

Hobbies and Interests :

- Sports (Football, Cricket, Volleyball), Computer gaming
